

**NAMIBIA CRITICAL METALS INC.**

## Press Release

### **Namibia Critical Metals Closes CDN\$662,500 Private Placement**

**Halifax, Nova Scotia March 12, 2021** - Namibia Critical Metals Inc. ("Namibia Critical Metals" or the "Company") (TSXV:NMI) today announced it has closed the non-brokered private placement announced on March 5, 2021 and March 8, 2021 ("Private Placement"). A total of 2,650,000 units were issued at a price of \$0.25 per unit. Each unit consists of one common share and one warrant. Each whole warrant is exercisable for one common share at a price of \$0.35 until March 12, 2022. A maximum of 5,300,000 common shares of Namibia Critical Metals will be issued pursuant to the Private Placement (assuming full exercise of all warrants).

The proceeds of the Private Placement will be used primarily to fund gold exploration and general corporate purposes. The common shares and warrants of the Company issued pursuant to the Private Placement are subject to a four-month hold period expiring July 13, 2021. Finder's fees of 6% were paid to Echelon Wealth Partners Inc. (\$6,000) and PI Financial Corp. (\$750) in respect of \$112,500 of units subscribed for.

#### **About Namibia Critical Metals Inc.**

Namibia Critical Metals holds a diversified portfolio of exploration and advanced stage projects in the country of Namibia focused on the development of sustainable and ethical sources of metals for the battery, electric vehicle and associated industries. The two advanced stage projects in the portfolio are Lofdal and Epembe. The Company also has significant land positions in areas favourable for gold mineralization.

**Heavy Rare Earths:** The **Lofdal Heavy Rare Earth Project** is the Company's most advanced project having completed a Preliminary Economic Assessment in 2014 and full Environmental Impact Assessment in 2017. An application has been made for a mining licence at Lofdal. The project is now in joint venture with Japan Oil, Gas and Metals National Corporation ("JOGMEC") who are funding the current CD\$4,100,000 drilling and metallurgical program with the objective of doubling the resource size and optimization of the process flow sheet.

**Gold:** At the **Erongo Gold Project**, stratigraphic equivalents to the meta-sediments hosting the recent Osino gold discovery at Twin Hills have been identified and soil surveys are progressing over this highly prospective area. The **Grootfontein Base Metal and Gold Project** has potential for magmatic copper-nickel mineralization, Mississippi Valley-type zinc-lead-vanadium mineralization and Otjikoto-style gold mineralization. Detailed interpretation of geophysical data and regional geochemical soil sampling have identified first gold targets.

**Tantalum-Niobium:** In addition to Lofdal, the **Epembe Tantalum-Niobium Project** is also at an advanced stage with a well-defined, 10 km long carbonatite dyke that has been

delineated by detailed mapping with over 11,000 meters of drilling. Preliminary mineralogical and metallurgical studies including sorting tests (XRT), indicate the potential for significant physical upgrading. Further work will be undertaken to advance the project to a preliminary economic assessment stage.

**Copper-Cobalt:** The **Kunene Copper-Cobalt Project** comprises a very large area of favorable stratigraphy along strike to the west of the Opuwo cobalt-copper-zinc deposit. Secondary copper mineralization over a wide area points to preliminary evidence of a regional-scale hydrothermal system. Exploration targets on EPLs held in the Kunene project comprise direct extensions of the cobalt-copper mineralization to the west, sediment-hosted cobalt and copper, orogenic copper, and stratabound manganese and zinc-lead mineralization.

The common shares of Namibia Critical Metals Inc. trade on the TSX Venture Exchange under the symbol "NMI".

**Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.**
